

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

A MONTHLY BIBLIOGRAPHY OF ANTHROPOLOGIC LITERATURE

COMPILED BY ROBERT FLETCHER, M. D.

- Ammon** (Otto). Der Abänderungsspielraum. Ein Beitrag zur Theorie der natürlichen Auslese. [*Reprint from: Naturw. Wehnschr.*, xi.] Berlin, 1896, F. Dümmler, 55 p. 8°.

Soc. rom. di antrop.*, Roma, 1895-6, iii, 223-240.

EXCAVATIONS are being conducted in a number of mounds by the Ohio State Archeological and Historical Society, under the direction of Mr W. K. Moorehead, and large collections, including many skeletons, have been unearthed.

DR HERMAN F. C. TEN KATE, having completed the publication of the report on his researches in the Indian archipelago, has been reappointed to his former position in the ethnological section of the Museo de la Plata, near Buenos Aires, Argentina.

THE CARNEGIE MUSEUM of Pittsburg has been excavating with some degree of success the McKee's Rock mound near that city.

EXTENSIVE RUINS have been discovered by Mr J. R. Reiley, of Boston, in the Sierra Madre, west of Jiminez, Mexico.
